

ADDRESSES TO ENGINEERING STUDENTS

This was a memory, not a real voice. Even after you became an accomplished meditator, the mind resisted this degree of blissful oblivion and tried to sabotage it with aural and visual memories. When he pushed Naomi, profit was the motive. He killed Victoria and Vanadium in self-defense. Those three deaths were necessary. "I've seen them," Tom assured her. "My dear, you've never smelled anything better than a field full of bacon vines." As Wally got behind the wheel and closed his door, Angel said, "Mommy, where's fog come from? And don't say Hawaii." She wasn't listening closely to him. Numb. She felt as though she were half anesthetized. She was looking past him, at nothing, and his Voice seemed to be coming to her through several layers of surgical masks, though he now wore none at all. "At home," Otter said. It wasn't a lie. He did have a pouch at home. He kept his fine-work tools and his bubble level in it. And he wasn't altogether lying about the wind. Several times he had managed to bring a bit of magewind into the sail of a boat, though he had no idea how to combat or control a storm, as a ship's weatherworker must do. But he thought he'd rather drown in a gale than be murdered in this hole. He ran gasping, praying, feet slapping the concrete sidewalk, frightening birds out of the purple brightness of blossom-laden jacarandas and out of Indian laurels, terrorizing a tree rat into a lightning sprint up the bole of a phoenix palm. The few people he encountered reeled out of his way. Brakes shrieked as he crossed intersections without looking both ways, risking cars and trucks and rhinoceroses. Edom bit his lower lip, shook his head, and stubbornly clung to Barty's left foot. His Country Squire laden with cookies, plum cakes, homemade caramel corn with almonds, and gifts, Edom drove directly home from Obadiah Sepharad's place, which had been their final stop. He roared away as if trying to outrun tornadoes and tidal waves. He reached the end of the alleyway, stumbled into the stream of pedestrians, nearly knocked over an elderly Chinese man, turned, and discovered ... no Vanadium. "You'll do better away from the ships, all the fighting and raiding. The King's working the old mines at Samory, round the mountain. There you'd be out of his way. Work for him you must, if you want to stay alive. I'll see that you're sent there. If you'll go." "Three hundred and ninety-six of the dead were children under the age of ten," Jacob continued. "A passenger train was tumbled off the tracks, killing twenty. Another train with tank cars got smashed around, and oil spilled across the flood waters, ignited, and all these people clinging to floating debris were surrounded by flames, no way to escape. Their choice was being burned alive or drowning." Leaving Spruce Hills, Junior thought he was putting distance between himself and his enigmatic enemy, gaining time to study the county phone directory and to plan his continuing search if that avenue of investigation brought him no success. Instead, he had walked right into his adversary's lair. Only a dishonest or delusional man, however, could justify Victoria's killing as self-defense. To a degree, he'd been motivated by anger and passion, and Junior was forthright enough to admit this. Sliding one hand lightly along the railing, the boy quickly descended the short flight of steps and walked onto the soggy lawn, into the rain. "My God," Junior said, pretending that his befuddlement had faded and that his mind had just now clarified, "you think Naomi was murdered, don't you?" He had come to believe that every well-rounded, self-improved person ought to have a craft at which he excelled, and needlepoint appealed to him more than either pottery-making or decoupage. For pottery, he would require a potter's wheel and a cumbersome kiln; and decoupage was too messy, with all the glue and lacquer. By December, he began his first project: a small pillowcase featuring a geometric border surrounding a quote from Caesar Zedd, "Humility is for losers." Evidently, her face was knotted with the effort to remember what the child had looked like, for the physician said, "Yes? What's wrong?" The sight of the heavily bandaged face apparently pressed all of the compassion buttons in the reverend, because he broke out of his paralytic shock and started forward before he registered the weapon. That was all right, for she had done the same for Otter's elder sister, and so his parents sent him to her in the evenings. But she taught Otter more than the song of the Creation. She knew his gift. She and some men and women like her, people of no fame and some of questionable reputation, had all in some degree that gift; and they shared, in secret, what lore and craft they had. "A gift untaught is a ship unguided," they said to Otter, and they taught him all they knew. It wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at deceiving his parents, he couldn't resist this knowledge, and the kindness and praise of his poor teachers. "It will do you no harm if you never use it for harm," they told him, and that was easy for him to promise them. The word need, instead of want, moved Paul to follow the doctor across the coffee shop. On second thought no. If Seraphim had told anyone she'd been raped, the police would have been at Junior's doorstep in minutes, with a warrant for his arrest. No matter that they would have no proof. In this age of high sympathy for the previously oppressed, the word of a teenage Negro girl would have greater weight than Junior's clean record, fine reputation, and heartfelt denials. To the windows, then, drawing all the blinds securely down. And still, irrationally, she felt watched. Agnes dropped to one knee before the boy and held him gently by the shoulders. "Let me look." "But I've never seen a case like this. Usually, boils appear on the back of the neck. And in moist areas like the armpits and the groin. Not so often on the face. And never in a quantity like this. Really, I've never seen anything like it." Because they were smaller than men and could move more easily in narrow places, or because they were at home with the earth, or most likely because it was the custom, women had always worked the mines of Earthsea. These miners were free women, not slaves like the workers in the roaster tower. Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel or shore a timber. "Suits me," Licky said. "I'll never forget it," Dr. Salk promised. With his attention still on Perri's pictures, he said, "But I'm afraid you give me far too much credit. I'm no superman. I didn't do the work alone. So many dedicated people were involved." Holding fast to the boy's right foot, Jacob observed that one elevator might descend safely but

that if they took two, one or the other was certain to crash to the bottom of the shaft, considering the unreliability of all machinery made by man..Turning around in his seat, watching with amusement as Celestina fumbled nervously with the currency, the cabbie said, "You're not scared, not you. Sitting back there so silent most all the way, you weren't thinking about being famous. You were thinking about that girl of yours." A sudden cold breeze blew down out of the moon, bearing a faint alien scent, and the black boughs of the trees billowed and rustled like witches' skirts..Leaving three of the pats in the container, he carefully placed the fourth on the vinyl-tile floor..Instead of immediately killing anyone, Junior returned to his apartment on the afternoon of December 29, and went to bed, fully clothed. To calm down. To think about focus..During the five years following Agnes's death, their family of many names thrived. Barty and Angel had brought them all together in this place fifteen years previously, but the destiny about which Toni had spoken on the back porch, that night in the rain, seemed to be in no hurry to manifest itself Barty could find no painless way to sustain secondhand sight, so he lived without the light. Angel had no reason to shove anyone else into the world of the big bugs, where she'd pushed Cain. The only miracles in their lives were the miracles of love and friendship, but the family remained convinced of eventual wonders, even as they got on with the day at hand..Meanwhile, she could offer him only a few pieces of ice, which he was forbidden to chew. "Let them melt in your mouth." From late morning until dinner, people arrived and departed, raised toasts to a merry Christmas and to peace on earth, to health and to happiness, reminisced about Christmases past, marveled about the first heart transplant performed this very month in South Africa, and prayed that the soldiers in Vietnam would come home soon and that Bright Beach would lose no precious sons in those far jungles..Thick fog distorted all sense of time and place. At each end of the block, pearly hazes of light marked intersections with main streets but didn't illuminate this narrower passage in between. A few security lamps-bare bulbs under inverted-saucer shades or caged in wire--indicated the delivery entrances of some businesses, but the dense white shrouds veiled and diffused these, as well, until they were no brighter than gaslights..Another thought: The young gallery employee would remember that Junior had asked after Neddy and had followed him toward the men's room. He would provide a description, and because he was an art connoisseur, therefore visually oriented, he'd most likely provide a good description, and what the police artist drew wouldn't be some cubist vision in the Picasso mode or a blurry impressionistic sketch, but a portrait filled with vivid and realistic detail, like a Norman Rockwell painting, ensuring apprehension.."You didn't at all," Dr. Salk assured him. "I need to talk to you. If you would give me a little of your time..." Unobtrusively, Junior followed the musician across the large front room, but by an indirect arc, using the babbling bourgeoisie for cover..His throat was still so raw from the explosive vomiting, seared by stomach acid, that he sounded like a character from a puppet show for children on Saturday-morning television, hoarse and squeaky at the same time. If not for the pain, he would have felt ridiculous, but the hot and jagged scrape of each word through his throat left him unable to..Two high-quality deadbolt locks. Sufficient protection against the average intruder, but inadequate to keep out a self-improved man with channeled anger..By now, all here assembled knew Celestina well enough that Tom's final example raised an affectionate laugh from the group..And now she didn't need him anymore. He gazed at her face, held her cooling hand; his anchor was slipping away from him, leaving him adrift..Her hands were slender, long-fingered, graceful. The hands of an artist. They were not powerful hands..their work, tears were followed by reminiscences that brought a smile and soothed, and hope was always found to be the flower that bloomed from every seed of hopelessness.."I don't ... don't understand." Blinking sleepily, pretending to be still thickheaded from tranquilizers and whatever other drugs they were dripping into his veins, Junior was pleased by the note of perplexity in his hoarse voice, although he knew that even an Oscar-caliber performance would not win over this critic..AT THE END OF THE fourth book of Earthsea, Tehanu, the story had arrived at what I felt to be now. And, just as in the now of the so-called real world, I didn't know what would happen next. I could guess, foretell, fear, hope, but I didn't know..Nolly shook his head, setting a cotillion of warts and moles adance on his pendulous cheeks. "Ask any adoptee who, as an adult, has tried to team the names of his real parents. Easier to drag a freight train up a mountain by your teeth.." "Here we are," said the driver, braking to a stop at the curb in front of the gallery..Using this apartment as a base, Nolly and Kathleen had conducted some of the small skirmishes in the first phase of the war, including the ghost serenades. They left the place tidy. Indeed, the only sign that they had ever been here was a packet of dental floss left behind on the sill of a living-room window..A smoldering cigarette, usually dangling aslant from one corner of a hard mouth set in a cynical sneer, was standard issue for tough-guy gumshoes, but Nolly didn't smoke. His failure to develop this bad habit resulted in a less satisfyingly murky atmosphere than the clients of a private dick might expect..Tom didn't attribute supernatural powers to this killer. Enoch Cain was mortal, not all-seeing and all-knowing. Evil and stupidity often go together, however, and arrogance is the offspring of their marriage, as Tom had earlier told Celestina. An arrogant man, not half as smart as he thinks, with no sense of right and wrong, with no capacity for remorse, can sometimes be so breathtakingly reckless that, ironically, his recklessness becomes his greatest strength. Because he is capable of anything, of taking risks that mere madmen wouldn't consider, his adversaries can never predict his actions, and surprise serves him well. If he also possesses animal cunning, a kind of deep intuitional shrewdness, he can react quickly to the negative consequences of his recklessness and can indeed appear to be more than human..Strapped to the bracing board, semi-immobilized to prevent the accidental dislodgement of the intravenous feed, Junior's right arm felt half numb, stiff from disuse..Celestina rose, heart suddenly clumping in her breast, like heavy footsteps hurrying away from an approaching bearer of bad news, but she herself couldn't run, could only stand rooted in her hope-and hear in her mind six versions of a bleak prognosis in the two seconds before the doctor actually spoke..One of the coin seekers knocked against Junior, jarring him loose of his paralysis, but when he stumbled out of the line of fire of the second vending machine, a third machine shot

quarters at him..He returned to the house and extinguished the three blown-glass oil lamps on the living-room coffee table. Out, as well, the silk-shade lamp..He was so innocent. This sweet boy, this pure and stainless infant, couldn't possibly have an enemy in the world, and she could not imagine any son of hers earning enemies, not if she raised him well. This was just a silly card reading..He met her eyes, but at once shifted his gaze to the porch floor again. "I've come to say ... how sorry I am, how miserably sorry."..LEFT HAND ON the banister, right hand with knife tucked close to his side and ready to thrust, Tom Vanadium climbed cautiously but quickly to the upper floor, glancing back twice to be sure that Cain didn't slip in behind him..ready to hear me. However long you need. But something ... something extraordinary happened here before you arrived."..Ministering to Perri, Joshua had pulled back her blankets. The fabric of the pale yellow pajama pants couldn't disguise how terribly withered her legs were: two sticks..He summoned enough courage to approach the nightstand. His hand trembled. He half expected the quarter to be illusory; to disappear between his pinching fingers, but it was real..Barty, thirteen years old but listening to books at a postgraduate college level, had no doubt studied leukemia while they were awaiting the test results, to prepare himself to fully understand the diagnosis on first receiving it. He tried not to look stricken when he heard acute myeloblastic, which was the worst form of the disease, but he appeared more ghastly in his pretense than if he had revealed his understanding. Had his eyes not been artificial, his stiff-upper-lip pose would have been utterly unconvincing.."Well, certainly, I understand," said Panglo, slowly lowering the offered hand, although he clearly didn't understand at all..Perhaps he would not have leaped along this chain of conclusions if he'd not been an admirer of Caesar Zedd, for Zedd teaches that too often society encourages us to dismiss certain insights as illogical, even when in fact these insights arise from animal instinct and are the closest thing to unalloyed truth we will ever know..Perri was often fast asleep by nine-thirty, seldom later than ten o'clock while Paul never turned in earlier than midnight or one in the morning. In the later hours, to the reassuring susurrations of his wife's breathing, he returned to his pulp adventures..being careful to place the point of impact precisely where the bottle had struck her..By the time he put his suitcase and three boxes of books--the collected works of Zedd and selections from the Book-of-the-Month Club-in the Suburban, Junior had rushed twice more to the bathroom. His legs were shaky, and he felt hollow, frail, as if he'd lost more than was apparent, as if the essential substance of himself was gone..Dinner arrived, and Tom persuaded Celestina and Grace to come to the table for Angel's sake, even if they had no appetite. After so much chaos and confusion, the child needed stability and routine wherever they could be provided. Nothing brought a sense of order and normality to a disordered and distressing day more surely than the gathering of family and friends around a dinner table..Now the hole was revealed. Damp earthen walls. In the shadow of the casket, the bottom of the grave was dark and hidden from view..In spite of its dazzle, the detective's smile was nonetheless melancholy, proof that he was sincere when he said that Seraphim's baby was beyond their reach..When all were gathered on the porch, lined up across the head of the steps and along the railing, in chill damp air that smelled faintly of ozone and less faintly of jasmine, Barty said, "Mr. Vanadium, your quarter trick is really cool. But here's something out of Heinlein."..He hurried the length of the diner, pushing past waitresses, checking out all three of the possibilities, but of course, none of them was the dead detective--or anyone else Junior had ever seen before. He was looking for--what?--a ghost, but vengeful ghosts didn't sit down to a meat-loaf lunch in the middle of a hauntin.."That's the Oreo. After I ate it up, the cookie went smooosh--smooosh into my finger."..Calcimine moonlight cast an arctic illusion over the boneyard. The grass was as eerily silver as snow at night, and gravestones tilted like pressure ridges of ice in a fractured wasteland..Wally drove slowly, carefully, with all the responsibility that you would expect from an obstetrician, pediatrician, and spanking-new fianc?. The trip home to Pacific Heights took twice as long as it would have taken in clear weather on a night without a pledge of troth..Paul was nearest to that corner when he halted Grace in her rush toward certain death. Before he quite realized what he was doing, he found that he'd flung open the door and climbed half the single long flight of steps, as surefooted as Doc Savage or the Saint, or the Whistler, or any of the other pulp-fiction heroes whose exploits had for so long been his adventures by proxy..She rushed on: "I'm one of the best waitresses they have, so if I ask for dinner shifts only, I'll get them. Tips are better at dinner. And working the one shift, four and a half to five hours, I'll have a regular schedule."..The musician's eyes met Junior's for an instant, widening with surprise. Obviously he knew that Gammoner was a lie. So he must be aware of Junior's real identity.."It's not a specific brand you can't have, it's the whole idea of a candy bar."..Cold, wind-driven rain slashed through the missing windows, and voices rose in the street as people ran toward the Pontiac-thunder in the distance-and on the air was the ozone scent of the storm and the more subtle and more terrible odor of blood, but none of these hard details could make the moment seem real to Agnes, who, in her deepest nightmares, had never felt more like a dreamer than she felt now..she'd crossed herself during Edom's rant about the Tri-State Tornado of 1925. Then, she'd been warding off bad fortune; now, with a smile and a look of wonder, she was acknowledging the grace of God, which, according to the cards, had been settled generously on Bartholomew..She didn't hide the diagnosis from the family, but she delayed telling them the prognosis, which was bleak. Already, her bones were tender, packed full of mutated immature white cells that hindered the production of normal white cells, red cells, and platelets..The can struck Junior hard in the face, breaking his nose, before he could duck..Kathleen Klerkle, Mrs. Wulfstan, sitting on the edge of Nolly's desk, looked diagonally across it at the visitor in the client's chair. Actually, Nolly had two chairs for clients. Kathleen could have sat in the second; however, this seemed to be a more appropriate pose for a hawkshaw's dame. Not that she was trying to look cheap; she was thinking Myrna Loy as Nora Charles in *The Thin Man*-worldly but elegant, tough but amused..He thought he heard the tick-scrape-rattle-clink of *Industrial Woman* on the prowl. In the living room. Now the hall. Approaching..After wiping her floury hands, Agnes took the book from him and, examining it, could find nothing wrong. She flipped back a few

pages, then a few forward, but the lines of type were crisp and clear. "Show me where, honey." Bill wasn't impressed. "They build houses out of mud in China. No wonder everything falls down." "When you didn't answer the doorbell, man, I just knew what must have happened," Chicane told Junior. He supposed Victoria might have a visitor. Perhaps a relative or a girlfriend. Not a man. No. She knew who her man was, and she would have no other while she waited for the chance to surrender to him and to consummate the relationship that had begun with the spoon and the ice in the hospital ten days previously. To the window in the driver's door, Barty came with a repertoire of comic expressions, mugging at his mother, sticking one finger up his nose and exaggeratedly boring with it as though exploring for nasal nuggets. "Not scary, Mommy!" PERRIS POLIO-WHITTLED body did not test the strength of her pallbearers. The minister prayed for her soul, her friends mourned her loss, and the earth received her. Having used his body as a clapper in the bell of the Dumpster, Junior had struck a loud reverberant note that tolled like a poorly cast cathedral bell, echoing solemnly off the walls of the flanking buildings, back and forth through the fogbound night. A few attractive women were here alone, proof that social mores had changed dramatically in three years. Junior was aware of their hot gazes, their need, and he knew that he could have any of them. Alarm contacts gleamed in the header, but the system wasn't currently activated. For all his brilliance, however, he was still a boy who loved to run and jump and tumble. Who swung from the backyard oak tree in a rope-and-tire swing. Who was thrilled when given a tricycle. Who giggled in delight while watching his uncle Jacob roll a shiny quarter end over-end across his knuckles and perform other simple coin tricks. His precious wife had fallen from the tower and died only hours before this girl was born. This girl ... this vessel. Room by room, closet by closet, Junior conducted a search for the detective. The cop was not here. Above the wainscoting, the walls were Sheetrock, unlike the plaster elsewhere in the apartment. On one of them, Enoch Cain had scrawled Bartholomew three times. Furthermore, fear of the unknown is a weakness also because it humbles us. Humility, Caesar Zedd declares, is strictly for losers. For the purpose of social and financial advancement, we must pretend to be humble-shuffle our feet and duck our heads and make self-deprecating remarks-because deceit is the currency of civilization. But if ever we wallow in genuine humility, we will be no different from the mass of humanity, which Zedd calls "a sentimental sludge in love with failure and the prospect of its own doom." Though they had expected the cause of the explosion, both Paul and Harrison were halted by shock at the sight of all this ruin. They had expected to find the car jammed into the wall of the house, never this far inside. The speed required to penetrate this distance into the structure beggared Paul's skills of calculation and made him wonder if even recklessness and alcohol were sufficient to produce, such a catastrophe. "Besides, I still live by my vows as much as possible, though I've had the longest continuing dispensation on record." A smile on that cracked countenance could be touching, but an ironic look now worked less well; it gave Kathleen a chill. "Vanity is a sin I've more easily been able to avoid than some others." "Who?" she shouted, though they were perched side by side on a black-leather love seat. Junior wasn't interested in Vietnam anymore, and he wasn't in the least troubled by the other news. These two years were disturbing to him only because of Thomas Vanadium. When she looked up from Barty, she saw the attorney with his hands full of documents. "Surprise? I know what's in Joey's will." He was no longer hopeful that they could have a future together. After sampling the Junior Cain thrill machine, Celestina would want more, as women always did, but the time for a meaningful romance had now passed. For all the anguish he'd been put through, however, he deserved the consolation of her sweet body at least once. A little compensation. Payback.
