

ANNI ALBERS NOTEBOOK 1970 1980

The syphilitic-monkey comparison struck Tom Vanadium as bizarre, but it turned out to be a sober judgment based on experience. In his fifties, Sparky had worked as the chief of maintenance at a medical-research laboratory, where-among other projects-monkeys had been intentionally infected with syphilis and then observed over their life span. In the terminal stages, some of the primates engaged in such outr? behavior that they had prepared Sparky for his eventual encounter with Enoch Cain..She started toward the door, stopped, and turned to him in the dark. "Kid of mine?".With a shiver, Kathleen said, "We'd like to know more about why we did the things we did for you. Why the quarters? Why the song?". "I get peed off, and I miss some things terrible. But I'm not sad. And you've got to not be sad, either, 'cause it spoils everything..". "Mommy, watch!" He turned in the deluge with his arms held out from his sides. "Not scary!". "When you didn't answer the doorbell, man, I just knew what must have happened," Chicane told Junior..Settling onto the empty stool beside this beauty, Junior offered to buy her a drink, and she accepted..She worried that he would need to go to the bathroom during the night and that, half asleep, he might turn the wrong way, toward the stairs, and fall. Three times they paced off the route from the doorway of his room to the hall bath. She would have walked it a hundred times and still not been satisfied, but Barty said, "Okay, I've got it..". "Consider what I told you," Dr. Salk urged. "Your Perri would want you to think about it..". Trying to ignore his phantom toe, which itched furiously, he searched the apartment. He proceeded carefully, determined not to shoot himself in the foot accidentally this time.. "I'm not saying there's anything wrong with it, you understand," Neddy whispered with a sort of fierce conciliation, "but I'm not gay, and I'm not interested in teaching you the piano or anything else. Besides, after the stories Renee told about you, I can't imagine why you think any friend of his ... hers would get near you. You need help. Renee is what she is, but she's not a bad person, she's generous and she's sweet. She doesn't deserve to be beaten, abused, and ... and all those horrible things you did. Excuse me..". "I'm not going anywhere," she pledged. She had realized that his voice was growing heavy with sleep. "But it's time for you to go to dreamland..". After a surgeon had lanced fifty-four boils and cut the cores from the thirty-one most intractable (shaving the patient's head to get at the twelve that were festering on his scalp), and after three days of hospitalization to guard against staphylococcus infection, and after he had been turned back into the world as bald as Daddy Warbucks and with the promise of permanent scarring, Junior visited the Reno library to catch up with current events.. Junior was glad for the chance to eavesdrop, not only because he hoped to learn the nature and depth of Vanadium's suspicions, but also because he was curious-and concerned-about the cause of the disgusting and embarrassing episode that had landed him here.. Unable to continue Tehanu's story (because it hadn't happened yet) and foolishly assuming that the story of Ged and Tenar had reached its happily-ever-after, I gave the book a subtitle: "The Last Book of Earthsea..". The following April, when he proposed to her, she wouldn't have him. "You're sweet, Paul, but I can't let you throw your life away on me. You're this ... this beautiful ship that will sail a long way, to fascinating places, and I'd only be your anchor..". She could have gone at him with the chair once more, but it was falling apart. Instead, she abandoned furniture for the promise of a firearm, dropped to her knees, and snatched the discarded pistol magazine off the floor.. Again, he cast his line of memory into murky waters nearly four years in the past, to the night of passion that he had shared with Seraphim in the parsonage. As before, he could recall nothing she'd said, only the exquisite look of her, the nubile perfection of her body.. As his drying tears became stiff on his cheeks, Junior decided that he would most likely have to kill Vanadium to be rid of him and fully safe. No problem. And in spite of his exquisite sensitivity, he was convinced that wasting the detective would not trigger in him another bout of vomiting. If anything, he might pee his pants in sheer delight.. Two of her largest and best paintings were in the show windows, dramatically lighted. They were dazzling. They were dreadful. They were beautiful. They were hideous.. They introduced themselves as Knacker, Hisscus, and Nork, but Junior didn't bother to associate names with faces, partly because the men were so alike in appearance and manner that their own mothers might have had difficulty figuring out which of them to blame for never calling. Besides, he was still tired from his recent ramble through the hospital-and unnerved by the thought of some baleful-eyed Bartholomew prowling the world in search of him.. On the other hand, one needed to believe in something. Junior didn't clutter his mind with superstitious nonsense or allow himself to be constrained by the views of bourgeois society or by its smug concepts of right and wrong, good and evil. From Zedd, he'd learned that he was the sole master of his universe. Self-realization through self-esteem was his doctrine; total freedom and guiltless pleasure were the rewards of faithful adherence to his principles. What he believed in-the only thing he believed in-was Junior Cain, and in this he was a fiercely passionate believer, devout unto himself Consequently, as Caesar Zedd explained, when any man was clearheaded enough to cast off all the false.. The nurse raised her eyes from Agnes to this other person. "Yes a chip of ice would be all right..". "No," Otter said, and hesitated. He felt he owed this man an explanation. "See, it's not so much won't as can't. I thought of making plugs in the planking of that galley, near the keel-you know what I mean by plugs? They'd work out as the timbers work when she gets in a heavy sea." Hound nodded. "But I couldn't do it. I'm a shipbuilder. I can't build a ship to sink. With the men aboard her. My hands wouldn't do it. So I did what I could. I made her go her own way. Not his way..". Though she was only a week past her third birthday, Angel always selected her own clothes and carefully dressed herself. Usually she preferred monochromatic outfits, sometimes with a single accent color expressed only in a belt or a hat, or a scarf. When she mixed several colors, the initial impression that she gave was of chromatic chaos-but on second look, you began to see that these unlikely combinations were more harmonious than they had first seemed.. He had been walking ever since, two and a half years, with brief respites in Bright Beach..obsessed with humanity's sorry penchant for destroying itself either by intention or ineptitude--491 suffocated

and burned alive on an evening meant for champagne and revelry..He had considered tracking down Celestina-and the bastard boy--prior to her exhibition. The alumni office of her college might be one route to her. And further inquiries in the city's fine-arts community would no doubt eventually provide him with her address..With his sister's financial backing, Edom purchased a flower shop in '71, after ascertaining that the strip mall in which it was located had been even more soundly constructed than the earthquake code required, that it didn't stand on slide-prone land, that it did not lie in a flood plain, and that in fact its altitude above sea level ensured that it would survive all but a tidal wave of such towering enormity that nothing less than an asteroid impact in the Pacific could be the cause. In '73, he married Maria Elena (that boy-girl thing, after all), whereupon she became Agnes's sister-in-law in addition to having long been a full sister in her heart. They bought the house on the other side of the original Lampion homestead, and another fence was torn down..When he came to himself, sick and weak from the poison and with an aching skull, he was in a room with brick walls and bricked-up windows. The door had no bars and no visible lock. But when he tried to get to his feet he felt bonds of sorcery holding his body and mind, resilient, clinging, tightening as he moved. He could stand, but could not take a step towards the door. He could not even reach his hand out. It was a horrible sensation, as if his muscles were not his own. He sat down again and tried to hold still. The spellbonds around his chest kept him from breathing deeply, and his mind felt stifled too, as if his thoughts were crowded into a space too small for them..Barty, she explained, would be rich in many ways. Financially rich, but also rich in talent, in spirit, intellect. Rich in courage, honor. With a wealth of common sense, good judgment, and luck..If he had been any other three-year-old, she would have told a compassionate lie. He was her miracle child, however, her prodigy, and he would know a lie for what it was..As the afternoon waned toward a portentous dusk and toward the gallery reception for Celestina White, Junior prepared his knives and guns..Rena was cheerful, short, and solid. Her waist measurement must have been two-thirds her height, and she favored floral dresses that emphasized her girth. With a German accent and in a voice that always seemed about to dissolve in a great gale of mirth, she said, "Madchen lieb, you look like a Christmas candle to me..". "Ordinarily, I'd recommend that you apply hot compresses every two hours to relieve discomfort and to hasten drainage, and I'd send you home with a prescription for an antibiotic..". Three doors in the dark hallway: one to the right, ajar, and two to the left, both closed..The night of Barty's birth, when Joey actually lay dead in the pickup-bashed Pontiac, as a paramedic had rolled Agnes's gurney to the back door of the ambulance, she had seen her husband standing there, untouched by that rain as her son was untouched by this. But Joey-dry-in-the-storm had been a ghost or an illusion fostered by shock and loss of blood..Tom Vanadium's uninflected but curiously hypnotic voice, his pensive manner, his gray eyes so beautiful in that fractured face, his air of measured melancholy, and his evident intelligence gave him a presence that was simultaneously as solid as a great mass of granite and yet otherworldly..Every distorted shape, every smear of color, every swath of light and shudder of shadows resisted her attempts to relate them to the world she knew, as if shimmering before her were the landscape of a dream..Startled, Nolly checked his shirt pocket and withdrew a quarter. "It's not the same one..". Clenching his right hand around the quarter, waving left hand over right, he intoned, "Jingle-jangle, mingle-jingle..". Opening his right hand, he revealed that the coin had vanished..He raised the lower sash of the tall double-hung window and slipped quietly into the dark kitchen. Because the window served also as an emergency exit, it wasn't set above a counter, and ingress was easy.. "There's nothing here for you," she said, stepping back from the door in order to close it.. "September 13, 1928. Lake Okeechobee, Florida. Two thousand people died in a flood..". Junior glimpsed Vanadium first in profile-and then, as the cop rode down and away, only the back of his head. He hadn't seen this man in almost three years, yet he was instantly certain that this was no coincidental look-alike. Here went the filthy-scabby-monkey spirit itself..Although she already knew that the answer could not be cheerily optimistic, Celestina wondered, "Is the baby likely to be . . . normal? ". At last Maria answered Jacob's question in a murmur, making the f sign of the cross once more as she spoke. "Never saw four. Never even just I see three. But four ... is to be the devil himself..". But first, in early July, he stopped taking French lessons. It was an impossible language. Difficult to pronounce. Ridiculous sentence constructions. Anyway, none of the good-looking women he met spoke French or cared whether he did.. RED SKY IN THE morning, sailors take warning; red sky at night, sailors delight.. In Maria's kitchen, still just four days past Christmas, Agnes let dissolve her stoic mask, and wept at last.. Tom Vanadium rose to his feet and, with one hand on Barty's shoulder, he surveyed the faces of those gathered on the porch. Most of these people were such new acquaintances that they were all but strangers to him. Nevertheless, for the first time since his early days in St. Anselmo's Orphanage, he'd found a place where he belonged. This felt like home.. To the growing pile of ruin, she added one of Joey's cardigan sweaters, after popping loose one bone button and almost completely detaching a sewn-on patch pocket. A pair of knockabout khaki pants: quickly clip open the seat seam; cut the corner of the wallet pocket, then rip it with both hands; snip loose some stitching and half detach the cuff on the left leg.. The hospital room was softly lighted, and shadows roosted on all sides like a flock of slumbering birds.. Once he had toured the exhibition, managing not to shudder openly, he tried to hang out within hearing distance of Celestina White, but without appearing to be listening with special intensity.. Tom was aware that something had happened here during the past week, an important development that Celestina mentioned on the phone but that she declined to discuss. He didn't harbor any expectations of what he'd find when she escorted him and Wally into the Lampion dining room, but if he'd tried to imagine the scene awaiting him, he wouldn't have pictured a s?ance.. When she was finished with the dishtowel, she returned to the dining room, and though dinner was underway, she called for another toast. Raising her glass, she said, "To Maria, who is more than my friend. My sister. I can't let you talk about what I've given you without telling your girls that you've given back more. You taught me that the world is as simple as sewing, that what seem to be the most terrible problems can be stitched up, repaired..". She raised her glass

slightly higher. "First chicken to be come with first egg inside already. God bless." Celestina turned in her seat to look back at Wally and Angel, who were waving. "I guess I am." He'd wanted to give Celestina more help than she would accept. She continued working nights as a waitress for two years, while she completed classes at the Academy of Art College, and she quit her job only when she began to sell her paintings for enough to equal her wages and gratuities. "Oh, it doesn't mean you're nervous in that sense. Nervous in this case means psychologically induced. Grief, Enoch. brief and shock and horror-they can have profound physical effects." Angel, however, focused on a point in the air above the table. Faint furrows marked her brow for a moment, but then the frown gave way to a smile. On Tuesday, less than twenty-four hours after Naomi's funeral, Knacker, Hisscus, and Nork--representing the state and the county held preliminary meetings with Junior's lawyer and with the attorney for the grieving Hackachak clan. As before, the well-tailored trio was conciliatory, sensitive, and willing to reach an accommodation to prevent the filing of a wrongful-death suit. Finally, he said, "What I did was grab the shovel, dig a hole really fast, and bury Muffin in it up to her neck-just until she calmed down." As red as Angel had been for her evening outing, she was that yellow for retirement to bed in her own home. Two-piece yellow jersey pajamas. Yellow socks. At the girl's request, Celestina had tied a soft yellow bow in her mass of springy hair. He traveled prairies and mountains and valleys, passed fields rich in every imaginable crop, crossed great forests and wide rivers. He walked in fierce storms when thunder crushed the sky and lightning tore it, walked in wind that skinned the bare earth and sheared green tresses from trees, and walked also in sun-scrubbed days as blue and clean as ever there had been in Eden. The pewter bludgeon slammed into the back of his skull with a hard pack. The scalp tore, blood sprang forth, and the man fell as hard as Victoria had fallen under the influence of a good Merlot, although he went facedown, not faceup as she had done. Her name was Victoria Bressler, and she was an attractive blonde. She would never have been serious competition for Naomi, because Naomi had been singularly stunning, but Naomi, after all, was gone. As Junior blew his nose and blotted his eyes, Vanadium said, "I believe YOU actually loved her in some strange way." The Spruce Hills Police Department was far too small to have a full-blown Scientific Investigation Division. And if the tableau presented to them appeared convincing enough, they might accept the death as a freak accident and never turn to the state police for technical. He hadn't killed this one, of course. A traffic accident. Wasn't that what Vanadium had said? Ten months ago, following tendon surgery for a leg injury, Seraphim had been an outpatient at the rehab hospital where Junior worked. She was scheduled for therapy three days a week. This surprised him. Of course, Oregon was not the Deep South. It was a progressive state. Nevertheless, he was surprised. Oregon wasn't home to many Negroes, either, a handful compared to those in other states, and yet until now Junior supposed that they had their own cemeteries. His artificial eyes were almost a month old. He'd been through surgery to have the eye-moving muscles attached to the conjunctiva, and everybody told him that the look and movement were absolutely real. In fact, they had told him this so often, in the first week or two, that he became suspicious and figured that his new eyes were totally out of control and spinning like pinwheels. Otter shrugged. Agnes remembered the blood, the awful red flood. Excruciating pain and such fearsome crimson torrents. She'd thought her baby had entered the world stillborn on a tide of its own blood and hers. With a portion of his profits from Tammy Bean's stock picks, Junior had bought a second painting by Sklent. Titled *In the Baby's Brain Lies the Parasite of Doom, Version 6*, it was so exquisitely repellent that the artist's genius could not be in doubt. Paul was nearest to that corner when he halted Grace in her rush toward certain death. Before he quite realized what he was doing, he found that he'd flung open the door and climbed half the single long flight of steps, as surefooted as Doc Savage or the Saint, or the Whistler, or any of the other pulp-fiction heroes whose exploits had for so long been his adventures by proxy. Leaving Spruce Hills, Junior thought he was putting distance between himself and his enigmatic enemy, gaining time to study the county phone directory and to plan his continuing search if that avenue of investigation brought him no success. Instead, he had walked right into his adversary's lair. "We want the scary one, 'specially if it has spiders, Pixie Lee said squeakily but defiantly. Agnes was able to respond, Paul sprang up and moved away. Other friends knelt and crouched and bent to her, and she lost sight of the pharmacist as he moved off through the dispersing crowd. "After the war, for a while, I was able to get more mainstream work. Racially ... things were changing. But I was getting older, too, and the entertainment business is always looking for someone young, fresh. So I never made it big. Lord, I never even made it medium, but I got along okay. Until ... by the early 1950s, my booking agent found it harder and harder to line up good dates, good clubs." "It's been a tough few years," he said. "Losing her ... and then getting out of Nam alive." "By law, adoption records are sealed and so closely guarded that you'd have an easier time acquiring a complete roster of the CIA's deep cover agents worldwide than finding this one baby." Angel was adamant: "Nope. I could learn that. Like dressing myself and saying thank-you." "Is it as bad as that?" Celestina wondered plaintively, though she knew the answer. "I love San Francisco. The city inspires my work. I've built a life here. Is it really as bad as that?" With the earth still tenuously stable beneath them, they arrived at their fifth destination, a new address on Agnes's mercy list. Celestina wanted nothing to do with it, was offended by the very sight of it, and she. "This card to mean also is family love, and is love from many friends, not just to be kissy-kissy love," Maria elucidated. She worried that her anxiety would prove contagious, that when her fear infected her boy, he would be less able to fight whatever hateful thing had taken seed in his right eye. It's unsettling. For all our delight in the impermanent, the entrancing flicker of electronics, we also long for the unalterable. A door slammed, and after the briefest of internal debates about whether to ize or act, Junior left Ichabod straddling the threshold. He must get to Celestina before she reached a telephone, and then he could come back and finish moving the body. During the past week, Junior had undertaken quiet background research on the prestidigitator with a badge. The cop was unmarried. He lived alone, so this bold visit entailed no risk. When at last he spoke, real grief, quiet but profound, softened

his voice: "March first, three years ago, my wife and two sons-Danny and Harry, both seven, twins-were coming home from visiting her parents in New York. Shortly after takeoff ... their plane went down." When Celestina first entered his ICU cubicle, the sight of his face scared her in spite of the surgeon's assurances. Gray, he was, and sunken-cheeked-as though this were the eighteenth century and so many medicinal leeches had been applied to him that too much of his essential substance had been sucked out..From Sparky, Tom Vanadium had borrowed a master key with which he could open the door to Cain's apartment, but he preferred not to employ it as long as he could enter by a back route. The less often he used the halls that were frequented by residents, the more likely he would be able to keep his flesh-and-blood presence a secret from Cain and sustain his ghostly reputation. If too many tenants got a look at his memorable face, he would become a topic of discussion among neighbors, and the wife killer might tumble to the truth..Paul shook his head. "Oh, no. People look at our marriage, and they think I gave up so much, but I got back a lot more than I gave." He managed to hold the towel around his foot, but it grew dark red and disgustingly mushy..MONDAY EVENING, January 15, Paul Damascus arrived at the hotel in San Francisco with Grace White. He had kept watch over her in Spruce Hills for more than two days, sleeping on the floor in the hall outside her room both nights, remaining close by her side when she was in public. They stayed with friends of hers until Harrison's funeral this morning, then flew south for a reunion of mother and daughter..No doubt thinking about the land of the big bugs, into which she had pushed Enoch Cain, which was exactly what Barty had suddenly thought about, Angel said, "Honey, this is amazing, it's wonderful, but you've got to be careful." As he edged closer, to better hear the conversation, he became aware of someone staring at him. He looked up into anthracite eyes, into a gaze as sharp as that of any bird, set in the lean face of a thirty something man thinner than a winter-starved crow..The short walk across the room, to the hero's table, looked more daunting to Paul than the trek he'd just completed. He was nobody, a small-town pharmacist who missed more work each month, who relied increasingly on his worried employees to cover for him, and who would lose his business if he didn't get a grip on himself. He had never done a great deed, never saved a life. He had no right to impose upon this man, and now he knew he hadn't the nerve to do so, either..Later, at home, he gargled until he had drained half a bottle of mint-flavored mouthwash, took the longest shower of his life, and then used the other half of the mouthwash..ROCKING AS IF AFLOAT on troubled waters, abused by an unearthly and tormented sound, Junior Cain imagined a gondola on a black river, a carved dragon rising high at the bow as he had seen on a."This will stay with you," Mary said. "It's shared sight from all the other yous in all the other places, but you won't have to make any effort to hold on to it. No headaches. No problems ever. Merry Christmas, Daddy."..Sitting in Simon Magusson's mahogany-paneled office, reading the contents of this file, Junior was aghast. "I could have been killed."..With Barty's presence, Christmas Eve dinners had become even more agreeable, especially this year when he was almost-three-going-on-twenty. He talked about the visits to friends that he and his mother and Edom had made earlier in the day, about Father Brown, as if that cleric-detective were real, about the puddle-jumping toads that had been singing in the backyard when he and his mother had arrived home from the cemetery, and his chatter was engaging because it was full of a child's charm yet peppered with enough precocious observations to make it of interest to adults..He had bribed a parking attendant to keep his Mercedes at the curb in a valet zone, in front of a nearby restaurant, so it would be instantly available when needed. He could also leave the car and follow Celestina on foot if she chose to stroll home from here..Jacob cooked corn bread, cheese-and-parsley omelettes, and crisp home fries with a dash of onion salt..Because his pinching fingers deformed the shape of her mouth, her voice was compressed: "I see all the ways you are."..Wish I could describe his face. Frosty the Snowman was never that white. The surveillance van is parked right there, two spaces south of the vending machines--".Grace, Celestina, and Paul expressed amusement and amazement at Angel's critical judgment..She was also a cat lover, working with the Kitten Conservatory to save abandoned felines from death in the city pound. She was the charity's investment manager. Within ten months, Tammy grew twenty thousand in Conservatory funds into a quarter million by speculating in the stock of a South African firm that hit it big selling germ-warfare technology to North Korea, Pakistan, India, and the Republic of Tanzania, whose chief export was sisal..Wednesday morning, January 10, he wired one and a half million dollars from the Gammoner account to Pinchbeck in Switzerland. Then he closed out the account in the Grand Cayman bank..Thereafter, he was repelled at the prospect of kissing her, and their relationship fell apart..Because he kept imagining the stealthy sounds of a dead cop rising in vengeance behind him, Junior switched on the radio. He tuned in a station featuring a Top 40 countdown..Later in the month, from Sparky Vox, Junior learned the building had a four-pipe, fan-coil heating system serving discrete ductwork for each apartment. Voices couldn't carry from residence to residence in the heating-cooling system, because no apartments shared ducting. Throughout the spring, summer, and autumn of 1967, Junior met new women, bedded a few, and had no doubt that each of his conquests experienced with him something she had never known before. Yet he still suffered from an emptiness in the heart..No, the more I think about it, the more it feels like this is just kids. Some kids goofing around, that's all. I- guess Vanadium got deeper under my skin than I realized, so when this came up, I couldn't think straight about it."..From time to time, customers had crossed the cocktail lounge to drop folding money into a fishbowl atop the piano, tips for the musician. A few had requested favorite -tunes..The little hands, so weak now but someday strong: Would they eventually be capable of savagery, as were the father's hands? Misbegotten offspring. This seed of a demonic man whom Phimie herself had called sick and evil. However innocent-looking now, what pain might she eventually in-- on others? What outrages might she commit in years to come? Although Celestina searched intently, she could not glimpse the father's evil in the child..When he reported for a physical and a reassessment of his draft classification, on Wednesday, December 15, he left the insert in his hitching shoe; however, he limped like old Walter Brennan, the actor, hitching around the ranch in The Real McCoys..Junior's breath smoked from him as if

he contained a seething fire of his own. He felt a sheen of condensation arise on his face, cold and invigorating..When she tried to speak to him, she could no more easily raise her voice than she could extend a hand to him..For forty-eight hours, he pumped himself full of prescription antihistamines, immersed himself in bathtubs brimming with numbingly cold water, and lathered himself with soothing lotions. In misery, gripped by self-pity, he dared not think about the 9-mm pistol that he had stolen from Frieda Bliss..Celestina's question had been about Phimie, but they had told her about the baby, and she was alarmed by their evasion..And when she finally looked directly at him, blinked at him, her lashes flicking off a spray of fine droplets, Agnes saw that Barty was dry. Not a single jewel of rain glimmered in his thick dark hair or on the baby-smooth planes of his face. His shirt and sweater were as dry as if they had just been taken off a hanger and from a dresser drawer. A few drops darkened the legs of the boy's khaki pants--but Agnes realized this was water that had dripped from her arm as she'd reached across him to adjust the vent.. "That wasn't gossip," Grace insisted. "I was just telling you that Paul got the swing repaired and rehung." After an interminable silence, the detective said, "Do you know what believe about life, Enoch?".The ball of sodden Kleenex was gripped so tightly in Junior's left hand that had its carbon content been higher, it would have been compacted into a diamond. He saw Vanadium staring at his clenched fist and sharp white knuckles. He tried to ease up on the wad of Kleenex, but he wasn't able to relent..As hard of head as she was hard of heart, Victoria had not sustained serious brain damage, only a concussion..Darkness, the one source of childhood fear that most adults never quite outgrow, held no terror for Barty. Although for a while his bedroom featured a Mickey Mouse night-light, the miniature lamp was there not to soothe the boy, but to quiet his mother's nerves, because she worried about him waking alone, in blackness..He didn't even dare to pretend to wake up now, with a mutter and a yawn because the detective would know that he was faking, that he had been awake all along. And if he'd been feigning unconsciousness, eaves.."You might as well beat a cloud for raining," said Otter's mother..The police. The stupid police. Ringing the bell when they knew he'd been shot. Ringing the damn doorbell when he lay here helpless, the Industrial Woman lurching toward him, his toe on the other side of the kitchen, ringing the doorbell when he was losing enough blood to give transfusions to an entire ward of wounded hemophiliacs. The stupid bastards were probably expecting him to serve tea and a plate of butter cookies, little paper doilies between each cup and saucer.."I could have been killed," Junior Cain repeated, suddenly so horrorstruck by this realization that an iciness welled in his gut, and for a while he wasn't able to feel his extremities..That evening, he was filled with a greater sense of adventure than he'd felt since arriving in the city from Oregon. Consequently, he treated himself to three glasses of a superb Bordeaux and a filet mignon in the same elegant hotel lounge where he had dined on his first night in San Francisco, almost three years earlier..The guy was carrying a purse, whatever that meant, and when he walked through the door, he had a goofy look on his face, but his expression changed when he saw Junior..The following day, Wednesday, December 27, his mother drove him to the library, where he checked out two Heinlein titles recommended by the librarian: Red Planet and The Rolling Stones. Judging by his excitement, on the way home in the car, his response to previous mystery-novel series had been a pleasant courtship, whereas this was desperate, undying love..Worse, the people who adopted Seraphim's baby might be anywhere in the nine-county Bay Area. Millions of phone listings to scan..He wanted to say: The vain, power-mad politicians who milk cheers from ignorant crowds, the sports stars and preening actors who hear themselves called heroes and never object, they should all wither with shame at the mention of your name. Your vision, your struggle, the years of grueling work, your enduring faith when others doubted, the risk you took with career and reputation--it's one of the great stories of science, and I'd be honored if I could shake your hand..Later, weak and shaken, as he was packing his suitcase, the urge overcame him again. He was astonished to discover that anything could be left in his intestinal tract.
