The situation is complicated further by the emergence and rapid economic and military growth of the-Chinese-Japanese Co-Prosperity Sphere, which threatens to confront Moscow with an unassailable power bloc should it come to align with ourselves and the Europeans. More than a few Kremlin analysts must see their least risky

Though he had not heard the beginning of the story, the whole tavern seemed far too quiet for a Saturday night..Congreve pushed himself back from the podium with his arms and straightened. When he resumed speaking, his tone had lightened slightly. "In the area that concerns all of us here in our day-to-day lives, the accelerating pace of the space program has brought a lot of excitement in the last two decades. Some inspiring achievements have helped offset the less encouraging news from other quarters: We have established permanent bases on the Moon and Mars; colonies are being built in space; a manned mission has reached the moons of Jupiter; and robots are out exploring the farthest reaches of the Solar System and beyond. But" --he extended his arms in an animated sigh--"these operations have been national, not international. Despite the hopes and the words of years gone by, militarization has followed everywhere close on the heels of exploration, and we are led to the inescapable conclusion that a war, if it comes, would soon spread beyond the confines of the surface and jeopardize our species everywhere. We must face up to the fact that the danger now threatening us in the years ahead is nothing less than that." At first I misread it as "orgasm." Sirocco had endorsed the request, it was true, but Colman wasn't sure it would count for very much since Sirocco ran D Company, and anything he said was probably inverted somewhere along the chain as a matter of course. Perhaps he should have persuaded Sirocco not to endorse the request. On the other hand, if anything recommended by Sirocco was inverted to start with, and if Pendrey was crazy but normal by the Army's standards, and if the premises that Pendrey was working with were also crazy, then the decision might come out in Colman's favor after all. Or would it?
