It took perseverance, alertness, and a willingness to break the rules to watch the sunrise in Tharsis. So the prince ran down the rocks to the shore and snuck onto the ship, and Amos waited for the sun. "I'd like to see that process from the start," he said. "Where you suit up for the outside, I mean." 48. "Where's a light?" cried Jack. "Only three months to go! His children had often asked him why a young man in his prime would turn his back on everything familiar and exchange twenty years of his life for a one-way journey to Alpha Centauri. They had good reason, since their futures had been decided more than a little by his decision. Most of the Mayflower II's thirty thousand occupants were used to being asked that question. Fallows usually replied that he had grown disillusioned by the spectacle of the world steadily rearming itself toward the same level of insanity that had preceded the devastation of much of North America and Europe and the end of the Soviet empire in the brief holocaust of 2021, and that he had left it all behind to seek a new start somewhere else. It was one of the standard answers, given as much for self-reassurance as anything else. But in his private moments Fallows knew that he really didn't believe it. He tried to pretend that he didn't remember the real reason..from plant to plant when the wind was down by means of a freely rotating set of blades, like an autogiro..glass; Stella ignored me..rasped in his ears.. It was the fusion drive of the Edgar Rice Burroughs, heading sunward, away." "I don't know," he told her cheerfully. "It's a tough problem, isn't it?" "Sir," I say, "there's nothing we can do here. We're just going to have to return home and let Earth figure a way out of this thing. Let them handle it." "Absurd, absurd, I know how absurd the suggestion is even as I voice it, no one on Earth is going to be able to defy the edict. I heard his typewriter. He wasn't feeling well," Lorraine Nesbitt said. Then she sucked air through her teeth and clamped her fingers to her scarlet lips. "Do you think he had something to do with that?" THE BEST FROM FANTASY & SCIENCE FICTION. "Are these treasures the pearls and gold and diamonds and emeralds you told me about?" "Thank you very much," said Amos and hurried off to the wheel-house. "You must obey the edict of the Sreen," the Intermediaries have told us repeatedly, "there is no appeal," but the captain won't hear of it, not for a moment. He draws himself up to his full height of two meters and looms threateningly over the four or five Intermediaries, who are, after all, small and not particularly substantial-looking beings, mere wisps of translucent flesh through which their bluish skeletal structures and pulsing organs can be seen..and raised one finger.
